† Goods destined for overseas countries are largely transferred from one State to another for transshipment to the overseas country. For 1910 and the subsequent years such goods are, in this table, shown against the State from which they were finally despatched from the Commonwealth. The exports from New South Wales and Victoria—the States in which transshipments are chiefly made—are thus inflated by the inclusion of goods consigned from other States. Owing to the discontinuance of the records of interstate trade from the 13th September, 1910, adjustment on account of transshipments can no longer be made. Taking the annual average of the transshipments recorded during the years 1907, 1908, and 1909, the New South Wales figures include exports of other States amounting to £3,036,672 net, per annum, and Victoria £1,003,714, which were originally despatched as follows:—From Queensland, £1,376,484; South Australia, £1,018,592; Western Australia, £8884; and Tasmania, £1,636,426. The great difference between the value of exports from Tasmania during the year 1901 and subsequent years is due to the fact that in the former year goods despatched from Tasmania for transshipment in other States were recorded as overseas exports from Tasmania, whereas in the later years they are included, for the most part, as exports from New South Wales and Victoria.

\* Owing to the failure to record as Oversea Imports, goods received in one State of the Commonwealth for transshipment to another State thereof, it has been estimated that the value of Imports given in this table is understated by the following amounts:—1901, £2,121,500; 1902, £1,546,924; 1903, £1,024,211.

† Does not include the value of Stores shipped in Australian Ports on board overseas ships. The value of Ships' Stores was in 1906, £875,966; 1907, £998,897; 1908, £1,196,106; 1909, £1,071,677; 1910, £1,080,133; 1911, £1,238,446; in 1912, £1,431,985; in 1913, £1,458,702; in the first six months of 1914, £771,581; and in 1914-15, £1,587,757. ‡ Preliminary figures; subject to revision. § First six months only.

NOTE.—In the above and preceding tables, the weighted average wage in 1911 for all States or industries, as the case may be, is taken as base (= 1000). The index-numbers are therefore comparable in all respects, that is to say, they shew not only the variations in wages from year to year in each State or industrial group, but they also furnish comparisons as to the relative wages in each State or industry, either in any particular year, or as between one year and another, and one State or industry and another.
